CLUB PENGUIN WORLD!

Club Penguin is the most fun place ever, but have you ever wondered what lies outside the island? This guide will show you!

Up High!

Who'd have guessed that **rainbow puffles** were living above us the whole time in the Cloud Forest?

A long time ago, the whole of Club Penguin Island flew into the air for the **Festival of Flight**, but nobody spotted the Cloud Forest.

Look out for:

Jet Pack Guy! He spends more time in the air than on the ground! Find out more on page 14.

Underground!

There's a whole other world under CP! Down past the **Cave**, through the **Hidden Lake**, into the Gold Mine, lower, lower, and then what?

Some strange fossils and bones have been discovered in the deep, dark depths, and we've heard rumours there could be **crab monsters** down there. Well, **Rookie** told us...

TIP:

Older puffles are more likely to dig rare items!

Look out for:

Treasure! There's loads of things buried beneath CP. Take a puffle on a walk and see for yourself.

Lost in Space!

In space, no one can hear you waddle. Space became really popular at the Future Party this year.

Somewhere up there is Planet Y, Planet Zeta and Upzar II. And probably lots more worlds we don't even know about!

Look out for:

Space Squids!
They are slimy, evil, and really good DJs!

Another Dimension!

There are lots of other dimensions and they are all a bit strange!

The most famous is the **Box Dimension**, a weird world of floating cardboard boxes. No, we don't know why.

Some other dimensions are the **Stair Dimension** (up, down, up), the **Doodle Dimension** (penguins become drawings), the **Desert Dimension** (sand, basically) and the **Candy Dimension** - our fave!

Look out for:

Orange puffles!

Is it any surprise that the weirdest puffles of all come from another d'mension full of cookies!?

Under the Sea!

It's said that in the ocean beneath Club Penguin there lives a lost race of **Merpenguins!**

Not to mention lots of bigger creatures like the **Giant Squid**, and sea monsters such as **Webnark** and **Glabook!**

Are you brave enough to go exploring?

WHAT IF...

...the Merpenguins used to live on an island just like CP that sank under water?

Does this door lead to the lost city of Penglantis?

Look out for:

Flippers, a friendly Merman who lives in Pengantis and tells terrible jokes!

Watch out Herbert!
This guy's back in the sky!

Who?

Is it a bird? Is it a plane? Well, actually, yes, it IS a bird! It's Jet Pack Guy, the greatest flying secret agent of them all!

Background:

Jet Pack Guy (also known as JPG) is an EPF Secret Agent and Tactical Lead on missions. He always wears his suit, sunglasses, and Jet Pack. Even when he goes swimming. Well that's what Rookie said anyway.

Personality:

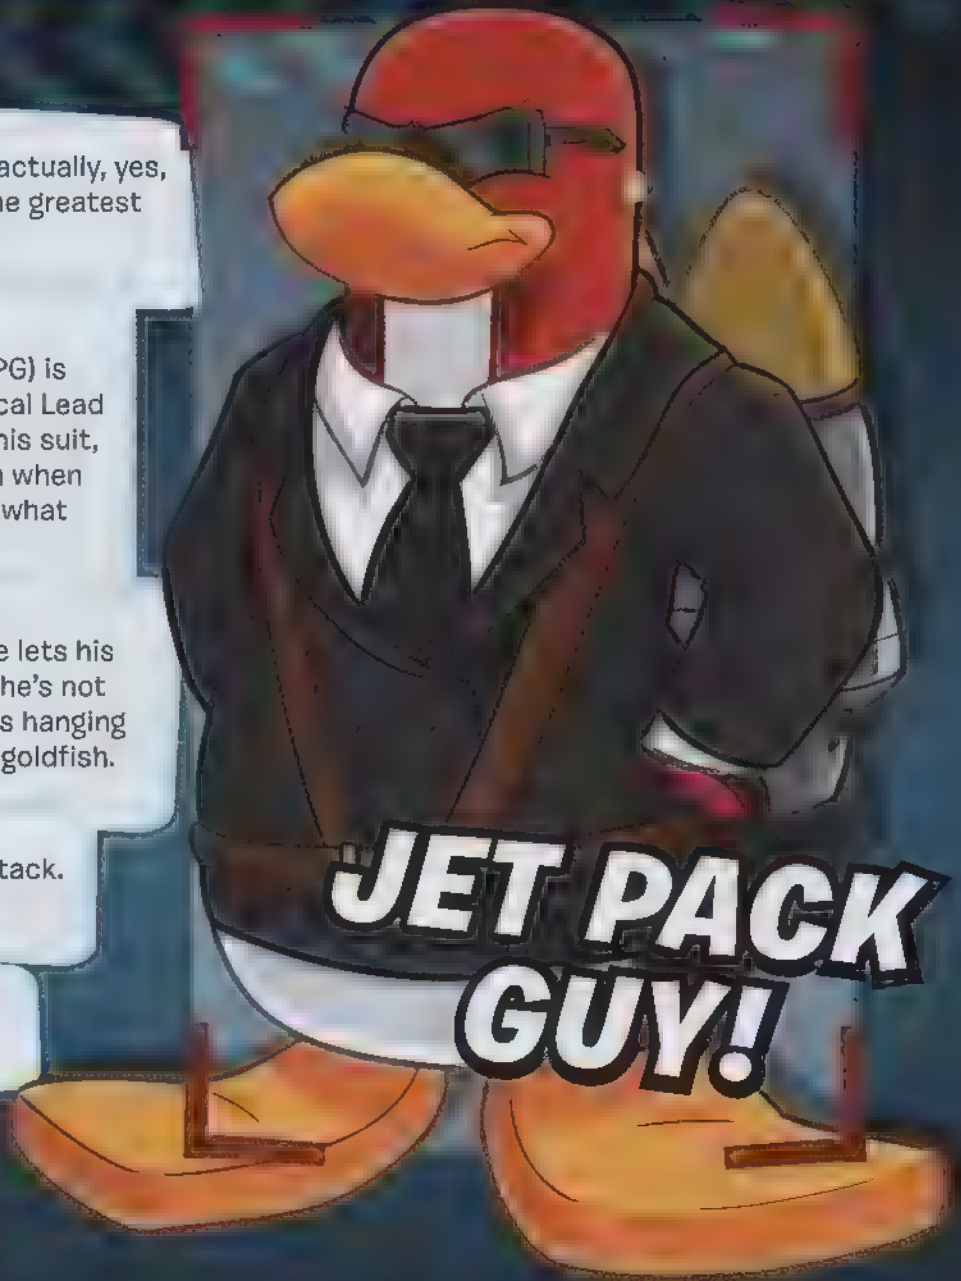

JPG is a penguin of few words; he lets his flying do the talking. Some think he's not very friendly, but actually he loves hanging out with his best friend, Flash. A goldfish.

Likes:

His Jet Pack. Flash. Eating hardtack. Missions. Well ironed suits.

Dislikes:

Idle chatter. Rookie's jokes. People borrowing his Jet Pack.

JPG is also a trained pilot!

DO SAY:

Sweet landing JPG!

DON'T SAY:

Can I borrow your jet pack? Pretty please?

Jet Pack Guy has been awarded "Best Dressed Secret Agent" four times!

SQUID IN A BOTTLE

CP's super scientist teaches you how to make this cool experiment with just a few everyday items!

YOU WILL NEED:

1. Empty plastic bottle
2. Plastic bag (see-through)
3. Scissors
4. Thread
5. Food coloring (optional)

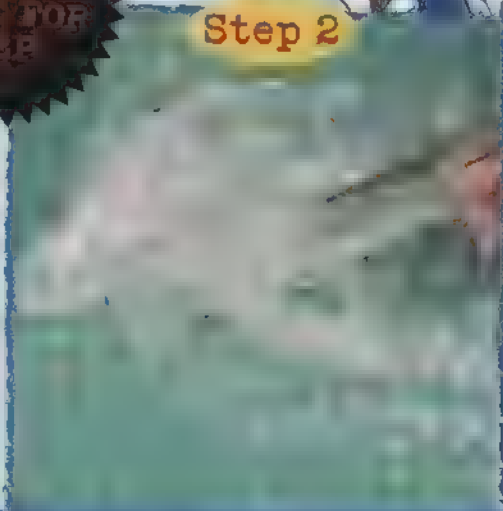

Step 1

Keep one side. From the middle, cut the bag and tie it loosely with thread.

BEFORE ASKING ADULT FOR HELP

Step 2

bottom of the bag as shown and cut out 10 or more tentacles of different lengths.

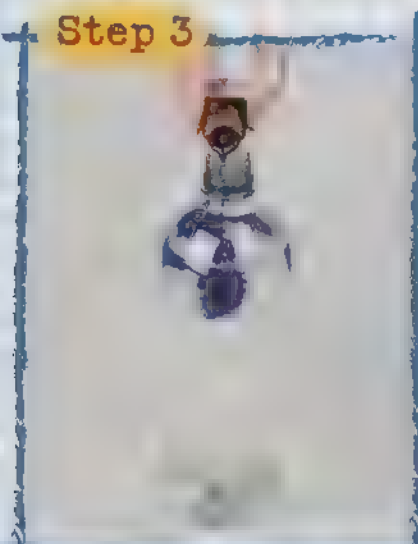

This suspended squid specimen looks very realistic!

GARY'S TIP!

Step 3

Fill up the bottle with water and add a few drops of food colouring - blue works really well!

Step 4

Dear G,
When you invented
the Pizzatron 3000
why not add a

easier to make pizzas?
From Toptoppings

Dear Toptoppings,
An excellent
suggestion, but the
Pizza Parlor is very
busy and hungry penguins are
rather impatient! Therefore I
calculated the optimum speed
of pizza making. Any slower and
penguins get hungry; any faster
and everyone gets covered in
cheese and hot sauce!
